# MAKALU

by Aptar

## CONVENIENT

- **Directional flow** with raised spout
- **Controlled and versatile dispensing** with Aptar's best-in-class valve technology
- Conveniently pouring with the active hinge allows **lid to stay open** during usage
- **Wide application:** large valve size facilitates dispensing with chunks and high viscosities.

## CLEAN EVERY TIME

- Cut-off valve feature minimizes **stringing & drip**
- No spurting, leaking or spilling

## SUSTAINABILITY

- **Lightweight** closure (only 4.5g\*)
- SimpliSqueeze valve and compatible with **SimpliCycle fully recyclable valve**

\* Without valve and liner

## SPECIFICATIONS:

- 38-400 neck finish
- 40mm outer diameter
- Dispensing options
  - Orifice: 6 / 12.5 / 16 mm
  - Large valve (.634")
- Flat seal
- Liner capable

## LINE EFFICIENCY

- **Capping efficiencies** thanks to the ribbed surface finish
- **Robust closure** with high-resistant hinge
