ROCKET

by Aptar

UNOPENED

OPENED

VISIBLE SAFETY!

Visible Safety

Non-detachable tamper evidence that is **visible and intuitive**, showing consumers that brand owners value safety.

Convenient Drinking

A comfortable drinking experience thanks to hinge technology which provides both a wide opening and no spring-back effect.

Ease of Closing & Sound of Safety

Specially designed to have an easy close and audible "click" to assure consumers the lid is properly closed.

Convenient Opening

Intuitive finger recess to open the closure from the front and from the side.

Clean & Protected

The double wall lid technology protects the spout from external ingress (dust, insects, etc.).

Tethered

The closure remains attached to the bottle making it compliant with upcoming Single Use Plastic regulations in Europe.

Suitable for Kids

Meeting kids toy norm (BSDA).

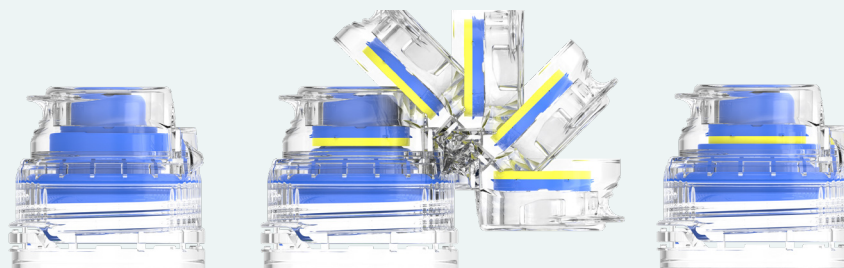

Efficient

Designed to be more efficient in the filling line.

Born from consumer insight

Our technical team is at your service to audit and optimize your filling lines.
