INNOVATE

Stand out!

Make a difference with a turnkey packaging solution that is **lightweight**, **recyclable** and **convenient**.

ROYAL

by Aptar

A TURNKEY PACKAGING SOLUTION WITH MULTIPLE BENEFITS TO A BROAD RANGE OF APPLICATIONS

Shelf Differentiation

- Eye-catching bi-color closure with a unique shape
- Top-down with excellent stability

Recyclable by Design

- New mono-material solution for EMEA
- Fully recyclable SimpliCycle™ valve
- Only 5g of packaging per 100g of food product, using less material than other formats such as glass and rigid plastic
- Optimal product evacuation

Turnkey Packaging Solution

- Packaging system in collaboration with pouch, equipment, and filler makers

Easily Make Snacks & Meals

- No utensils to clean
- Child friendly
- Controlled dosing due to soft packaging paired with unique Aptar valve technology for a constant product flow and clean cut-off
- Large valve size enabling dispensing of various products' viscosities and small chunks

Product Protection & Hygiene

- Limited air entry with one-way collapsible pouch and valve
- Product protected from contact with utensil

Specifications

- PP flip-top closure
- 33-400 / 55mm
- Recyclable valve 0.634" (16.1 mm)
- Bi-injected
- Liner capable
