AGSS 2023
ARIBA GUIDELINES

You have received an Ariba e-mail to join the Supplier Collaboration Process environment. Click on the e-mail link and:

- If you already have a user account and have been working with SAP ARIBA previously, **click 'Log In'.**

- If not, you can create an Ariba Network Profile, **click 'Sign Up'.**

Welcome, Michel DURAND

Have a question? Click here to see a Quick Start guide.

Welcome to the Ariba Network. **Aptar** - TEST has invited you to a sourcing event.

New to the Ariba Network? Sign up to register your user account. **Sign up**

Already have an account? **Log in**

About Ariba Network

The Ariba Network is your entryway to all your Ariba seller solutions. You now have a single location to manage all of your customer relationships and supplier activities regardless of which Ariba solution your customers are using. Once you have completed the registration, you will be able to:

- Respond more efficiently to your customer requests
- Work more quickly with your customers in all stages of workflow approval
- Strengthen your relationships with customers using an Ariba Network solution
- Review pending sourcing events for multiple buyers with one login
- Apply your Company Profile across Ariba Network, Ariba Discovery and Ariba Sourcing activities

Moving to the Ariba Network allows you to log into a single location to manage:

- All your Ariba customer relationships
- All your event actions, tasks and transactions
- Your profile information
- All your registration activities
- Your contact and user administrative tasks

Dear Suppliers,

The Challenge Brief process is the cornerstone of the **Aptar Global Supplier Summit** (AGSS) and an opportunity for you to showcase your capabilities to create business opportunities with Aptar.

All your innovative ideas should be submitted in this tool, please follow the next steps that you can find below :

1- Accept the bidder Agreement :

A. Click on **"2- prerequisites"** in the left side under the control list and accept by clicking "DONE" (bottom right).
B. Scroll and Accept the confidentiality agreement by answering "YES" on the right side.

2- **Read the challenges** by downloading the pdf File "Challenge Briefs - Supply Chain"

3- Choose the Challenges you want to participate in by clicking on the "Yes" or "No" button on the right side of the screen

Solutions should be detailed and well developed. They can either be innovative solutions that are ready to be deployed *or* solutions that are still in the early stages. Deadline for submission is **February 28th.**

Your submission will be reviewed by our team and finalists will be selected to present their solutions live during the AGSS to key Aptar executives on June 14th, 2023.

Please note that participating to this process **does not** guarantee the participation to the upcoming AGSS.

Review the challenges and select challenges you want to participate in below.

2.1 Please download the Challenge : 🡕 Challenge Briefs_metal components decoration.pdf ⌄

2.2 **Challenge 1: Reduce CO2e in transportation**

Aptar has committed to aggressive SBT targets to reduce CO_2e by 2030. Transportation as part of scope 3 needs to contribute to this reduction. Levers to reduce CO_2e have been identified but they either involve a change in how the company operates or additional cost. In addition, it is a challenge to quantify these CO_2e savings. We need solutions about all stages of the transportation process and all means of transportations (e.g. efficiency in transportation, pallets, technologies applied to transportation).

* Non spécifié(e) ⌄

Select yes if you want to participate

2.3 **Challenge 2: Global TMS**

Market volatility, lack of visibility, increase in fragmented volume, new ESG requirements, have made it more complex to manage and quickly react to conditions contributing to the end price and lead time that Aptar can provide to its customers. Transportation is a global category but most of the TMS solutions we have seen are strong in some regions but not in others. Also, most solutions are lacking in the area of ESG. Today we have a TMS for road transportation in the US but that TMS does not have the global reach needed or the ESG component.

* Non spécifié(e) ⌄

Dear Suppliers,

The Challenge Brief process is the cornerstone of the Summit and an opportunity for you to showcase your capabilities to create business opportunities with Aptar.

After having read these challenges, you can submit your innovative ideas in Ariba.
Your submission will be reviewed by our team and finalists will be selected to present their solutions live during the Summit to key Aptar executives.

How to submit your solutions to Challenge Briefs?

Submission:

- Submit your solutions in this event in ARIBA, just below.
If needed you can attach additional dicuments to challenges section when responding.

Solutions should be detailed and well developed. They can either be innovative solutions that are ready to deploy or solutions that are still in the early stages and require input from Aptar for development.

In case of questions, please send using message board in ARIBA

Review the challenge and submit your innovative proposal

3 CHALLENGE 17 : Faster and more reliable Lead Time for resin materials   Less... −

Market volatility, rapid demand change from the customers, pandemic and social political events causing resource shortages to have triggered and are still triggering issues on delivering our products at the requested lead time from the customer. The Lead Time offered by Aptar to our customer becomes longer and less reliable with several updates and changes compared to the initial commitment. The supplier Lead Time is as well impacting the overall customer Lead Time- becoming longer and less reliable compared to the previous years.
