

PZ1

Pre-compression pump
for water-based & alcoholic
formulas.

PRODUCT BENEFITS

- Various module features for different formulations:
 - PZ1 HV for formulas which are slightly more viscous than water
 - PZ1 T ("Technical") for aliphatic (oil-based) formulas
 - PZ1 THV for aliphatic formulas which are slightly more viscous than water
- Dosage: 140, 150 (only with HV version) or 190 µl
- Available closure diameters: 1" cup, 20 mm, 22 mm, 24 mm, 18 mm and 20 mm ferrule
- POM-free insert option: Twist 190 µl, PSK001 150µl and 190µl, PZ Chic 140µl, 150µl and 190µl
- Components available with PCR Plus*: actuator, fixture, cap
